WORK EXPERIENCE

Mar 2021 - Feb 2023

Selstack Limited

CHIEF TECHNOLOGY OFFICER & SOLE DEVELOPER

I was responsible for creating and implementing the entire system architecture. This included designing and developing the front-end and back-end platforms (separated) to enable effective customer management for our users. I focused on creating a user-friendly interface for managing customer data, interactions, and communication. Additionally, I integrated features such as lead tracking, sales pipeline management, email marketing, team mates and permission control, etc.
